**26 Portland Restaurant Locations to Support Local Senior Program on August 25th**

Nationally, less than 3% of all philanthropic dollars go to support programs for seniors, but on Tuesday, August 25th, twenty-six Portland area restaurants will donate 10-20% of sales to Store to Door. Store to Door is a nonprofit organization dedicated to providing a low-cost, volunteer-based grocery shopping and delivery service for seniors and people with disabilities. The program helps low-income elders maintain their independence, increase their social supports, and access other services that support aging-in-place.

Store to Door services really do make a difference. A Store to Door Client says, "I used to go days without eating and was too ashamed to ask for help. Store to Door has changed my life." Each year, Store to Door serves 500+ home-bound Oregonians with 7,500+ deliveries, and these numbers will continue to grow.

You can help support Store to Door by dining out at one of the restaurants below on August 25th. To find out more, visit [Store to Door's Facebook page](#).
